

The District's emergency nursing policies shall be developed by a professional nurse(s) registered in Wisconsin in cooperation with other District personnel and representatives from community health agencies and services as may be designated by the board.

The emergency nursing services policies shall include protocols for dealing with accidental injury and illness, administration of medication, asthma inhalers, and epinephrine injectors (see policy 453.4), and procedures for handling concussions and head injuries at all school sponsored activities including but not limited to curricular, co-curricular and extracurricular activities and a method to record each incident of service provided.

The District will engage the services of a licensed physician to serve as an advisor for the emergency nursing services.

The District will conduct an annual review and evaluation of the District's emergency nursing services.

The District will ensure that all appropriate emergency information cards, equipment, supplies and space for emergency nursing services are readily accessible.
