

684 AUDITS

Each year the Board will open the district's books and accounts to an independent certified public accountant who will conduct an audit in conformance with standard accounting procedures and legal requirements. The Board will select the certified public accountant and pay for the audit with school district funds.

1. The completed audit will be presented to the Board for examination and certify to the Board that the audit conforms to the accounting system of the State Department of Public Instruction.
2. All copies of the audit will be filed with proper authorities as prescribed by law.
