

723.1 FIRE DRILLS

Except during periods of severe weather, a fire drill will be held at least once a month in each school building in the district. Each building principal will prepare a definite fire emergency plan and furnish to all teachers and students information as to route and manner of exit. Fire drills will be planned in such a way as to accomplish the evacuation of school buildings in the shortest possible time and in the most efficient and orderly fashion.

Principals will see that all legal requirements are complied with in their buildings. They will keep a record of all fire drills held in their schools, stating the date the drill was held and the time required for evacuation of the building. They will furnish such reports to the proper state and local agencies in accordance with state law.
