

ALCOHOL AND DRUGS ON SCHOOL PROPERTY

Policy 833.1

Page 1 of 1

In accordance with state law, the possession and/or consumption of intoxicating liquors on school premises, while participating in a school sponsored activity, traveling in district owned or controlled vehicles, in parked vehicles on school premises by any person, is prohibited. However, the district administrator may, with board approval, give permission for the sale and consumption of intoxicating beverages to non-school groups or clubs, on specified dates and times. Such permission shall be in writing.

In addition, the possession or use of controlled substances (i.e. marijuana, amphetamines, L.S.D., barbiturates, or cocaine), drug paraphernalia, or analogous controlled substances on school premises, in parked vehicles on school premises, or while participating in any school sponsored activity, on or off-campus is prohibited.

Violations that occur during permit use of building facilities shall cause cancellation of future permits or denial of future requests.

Use, possession, delivery or storage by a student shall constitute grounds for disciplinary action.

The local police department, along with the school administration, shall enforce this regulation.

The administration will establish procedures to disseminate this policy to applicants for facility use.
