

SLINGER SCHOOL DISTRICT

PROJECT PROGRESS REPORT >>> March 2017

What's New?

March snow and rain means muddy construction sites, but referendum progress 'marches' on across the District as construction teams continue to collaborate with staff and administration. Progress continues at Addison Elementary and Allenton Elementary with portions of interior walls painted, ceilings complete, and classroom finishes underway. Allenton Elementary reached a milestone, as the gym precast structure is complete and is standing tall! Watch for window openings to be cut in and additional brick/metal installed to make the gym weather-tight. Finally, bidding is complete for the high school, auditorium, and concession building and each project is on budget and on schedule. See the following pages for construction progress photos and design images.

Phase 02: Addison Elementary / Allenton Elementary School

Allenton - Inside Freshly Painted New Classroom

Allenton - Window Interior Sills to be Installed Shortly

Allenton - Pipes and Wiring to be Covered With Ceiling Soon
