

SLINGER SCHOOL DISTRICT

CONSTRUCTION UPDATE >>> Annual Report 2017

Recap

Every project from the successful February 2016 referendum has made tremendous progress over the past year. Since the 2016 Annual Report, the District team and its design and construction partners have celebrated three groundbreaking and one gymnasium grand opening! In an effort to continue keeping staff, students, parents, and community members informed on the progress being made, the District wanted to provide a recap of each project and where it stands at the end of this fiscal year. This summary is a supplementary document to the monthly progress reports distributed by the District. Keep an eye out for completed project photos of Addison, Allenton, and Concessions as the 2017-18 school year begins!

Phase 01: Slinger Elementary School / Slinger Middle School

STATUS: Complete!

SES - gymnasium grand opening celebration
